Post Landfall Debris Model Results

Maine - 304,000 Yards

*Model results per County on
following page*

This model is based on a
Category 1 storm making landfall
coastal Maine.

Debris

- < 100,000 cubic yards
- 100,000 - 249,999 cubic yards
- 250,000 - 499,999 cubic yards
- 500,000 - 999,999 cubic yards
- >1,000,000 cubic yards

Information provided on this page displays a Category 1 storm making landfall coastal Maine. These projections are based on information from the NHC (1600 EDT 08/06/2008) forecast. The amount of debris forecasted is possible total volume, not necessarily the volume that may need to be removed with Federal funds, but does not include volume that may be covered by private insurance. Debris volume may include storm surge generated debris.
